

TREAD PLATE **EMBOSSSED BRIGHT** **FIRE TRUCK QUALITY**

New Enhanced Diamond Bar Tread Plate

Embossed Tread Plate provides superior anti-slip safety. It is resistant to weathering, corrosion and contact with chemicals and remains truly slip resistant when surface is wet or oily.

Available in 1.6 and 3.18 mm thick up to 1219 mm wide x 4876 mm long. No minimum order required... we can even cut to size.

The perfect choice for sport trailers, slippery areas, dock surfaces, stairways and more.

Diamond pattern with a unique modification to the top surface that creates improved grip.

Aluminium Grade 3003-H22. Good welding and formability characteristics. Visit us for a free sample. **Call now!**
